

Conference phones for every situation

Konftel 100 – the hassle free conference phone

The Konftel 100 is the optimal conference phone for the smaller meeting room. It provides perfect sound quality with all the functions for every conferencing requirement. The smarter way to hold regular meetings.

You can hold a meeting anytime – regardless of distance and fully booked schedules. Konftel makes telephone conferencing the ideal alternative, providing an opportunity to bring people together and hold spontaneous meetings to reach instant decisions. Konftel conference units are all equipped with the unique OmniSound® feature – optimal sound for totally natural, crystal clear communication.

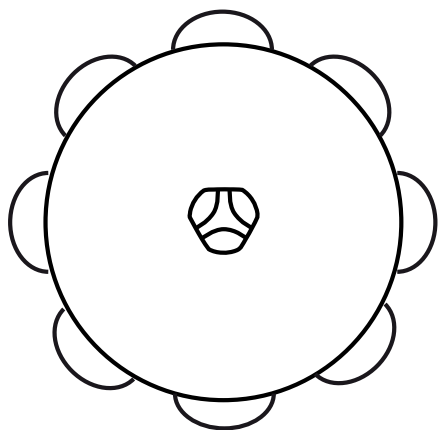

Advantages of the Konftel 100

- Practical unit, simple to connect and use
- For analogue line (PSTN)
- Keypad with a redial button, an R-button for multi-party calls, volume control and a mute button
- Conference button for speed dialling
- OmniSound® – crystal clear sound
- Natural sound – (full Duplex)
- 2 year warranty

Meetings made easy!

With a range of up to 30 m² the Konftel 100 is ideally suited for smaller meeting rooms. Everything you need is at your fingertips on the stylish and uncluttered keypad. Simply place the unit in the middle of the table and make your call.

Key controls at your fingertips

The Konftel 100 has volume control, a mute button and an R-button for multi-party calls. In other words, the most important functions for your audio conference. The Konftel 100 also has a special conference button (CONF) for storing your most frequently used number.

OmniSound® – crystal clear sound

Walk and talk freely around your room with consistently high quality sound. There is no irritating sound clipping, damping or echoes. OmniSound® produces natural sound in both directions (full Duplex) as well as 360° sound pick-up and reproduction. An ultra-sensitive microphone provides omni-directional sound pick-up and three built-in surround speakers provide crystal clear sound through the room.
